Games copied from Wordwall: what to check

All 115 Wordwall games were copied with their exact words, questions and answers. Where Wordwall showed a picture of a letter, the letter is now typed in.

Most pictures could be worked out from the text next to them (a name, a right answer, a group name). The games below had pictures the data could not explain, so part of them is a best guess.

To fix one: Admin page > Games tab > the game > edit (pencil).
